## PROJECTS

### ANDROID MOBILE APPLICATION, PIZZA HUT

Lead programmer in a group of three other people where the goal was to create a live tracking mobile application where the user could track their delivery driver. Application includes other features such as time estimates, push notifications and more. Developed in Java/XML & Firebase.

### UNITY EDUCATIONAL VIDEO GAME, ASU PREP DIGITAL

Assisted in programming as well as creating 3D models in a group of three other people to develop an educational video game for an online ASU psychology course. The game is a scavenger hunt for clues on what type of psychology each level represents. Developed in Unity using C# and 3DS Max for models.

### TICKER TRACKER, PERSONAL WIP

Personal project where I attempt to create a chrome extension that allows the user to view the stock tickers mentioned on a site, and view the stocks information.  Developed in HTML/CSS/JavaScript

## EDUCATION

### BACHELORS OF SCIENCE – GRADUATED 2020

## JOB EXPERIENCE

### JAN 2020 - CURRENT
### PHARMACY TECHNICIAN, CVS PHARMACY

Responsible for assisting pharmacists, preparing prescriptions, entering data, and providing compassionate customer service. Recently began overseeing all COVID-19 testing in the district by training new nurses

### JUN 2016 – DEC 2016 | APR 2017 – FEB 2018 | MAY 2019 – JAN 2020
### CASHIER | SUPERVISOR | OPERATIONS MANAGER, CVS PHARMACY

Went through many positions within CVS as I worked my way up the ladder. Each role came with more responsibility and ability to impact the stores performance. I learned a lot of valuable things from each role, and think they have made me a stronger and more flexible worker and learner.
